

# Origin Windows

Buyers Guide

# Origin's premium aluminium window range

offers the style, sophistication and security that any home deserves. Complementing either traditional or modern homes, a bespoke Origin Window will undoubtedly give a home a new lease of life with its **timeless British design**.

The Origin Window embodies traditional craftsmanship by combining a unique aluminium flush casement with contemporary hardware and slim sightlines. With authenticity at its heart, the Origin Window is an excellent solution for art deco designs, townhouse properties and developments in conservational areas thanks to its timeless design.

Particularly prominent in countryside dwellings, 19th century timber windows are synonymous with flush casements and the Origin Window captures the beauty of this traditional style. In addition to this, the Origin Window offers the added benefits of being maintenance free, highly durable and being manufactured from an energy efficient, premium grade aluminium.

## Optimum Security

The Origin Window is not only attractively designed, but is also incredibly secure. Manufactured and assembled in Origin's state-of-the-art facility in the UK, the Origin Window makes use of the industry renowned Yale Encloser lock, which features innovative bi-directional locking technology for a truly secure window system.

High security stainless steel hinges offer unrivalled compression through a unique patented hinge geometry, and the hinge guards ensure complete protection from intruders.

The Origin Window blends sophisticated style and elegance with the very latest in high performance and high security locking mechanisms. They comfortably outperform the demanding, police-preferred 'Secured by Design' standards.

## Colours

Origin permanently hold 11 of the most popular colours in stock, and windows ordered in these will be available on a fast track lead time.

For those wanting something other than the stock colours, Origin have a further 150 RAL shades to choose from. From the subtle to the slightly outrageous, there'll be a colour to suit every home.

## Handles

The Origin Window handle is extremely important, blending reliable functionality with tasteful aesthetics and real-world ergonomics. In use, they must always communicate safety and robustness.

That's why Origin handles are given the same attention to detail as every other component. Origin Window handles are also able to be colour coded to match the frame - a feature unique in the industry.

Whether in premium stainless steel or one of Origin's industry-unique colour-coordinated options, home owners can be sure of a contemporary handle offering the same faultless service as the windows themselves.

## 20 Year Guarantee

By combining a high grade aluminium with precision engineering and exceptional standards of craftsmanship, Origin have a proven track record in providing high quality, functional and stylish products that are built to last.

With rigorous ongoing quality testing, every Origin Window leaving the Buckinghamshire-based factory meets a guaranteed standard - which means that Origin are able to offer a 20-year guarantee for optimum peace of mind.

## Thermal Efficiency

The Origin Window has been designed to keep a home warm when it's chilly and cool when it's hot. Featuring an advanced triple weather seal that resulted in unrivalled weather testing results, the Origin Window ensures that the elements are kept outside and that energy bills stay low.

Boasting a Certified U-Value of 1.5, the Origin Window significantly exceeds British Building Regulation requirements for optimum efficiency, achieving a Window Energy 'A' Rating based on double glazed simulations.\*

## Safety First

As well as looking stunning, the Origin Window is highly functional in satisfying building regulations for emergency exits, restricted openings and for marine based dwellings.

In addition to this, the hinges are specifically designed to reduce the possibility of finger entrapment.

## Options/Configurations

The Origin flush casement window is available in side hung, top hung, fixed frame, bay and gable end configurations.

## Why Aluminium?

Frame strength is very important in a window system. Aluminium is Origin's material of choice because of its strength, durability and longevity.

Aluminium combines strength and robustness with a lightweight structure, meaning it's extremely strong yet weighs 67% less than steel.

This winning combination makes aluminium the ideal material for visually exquisite, easy to operate and secure windows.

Stunning Gable End Windows

## About Origin

Origin are the UK's leading specialist manufacturer of bespoke aluminium bi-folding doors, windows and made-to-measure blinds.

Established in 2002, Origin have since worked relentlessly to perfect the design and functionality of bi-folding doors, windows and blinds to create and maintain the highly respected reputation for quality and service they have today.

Origin was originally born when cousins, Neil Ginger and Victoria Brocklesby, set out with the ambition to design, create and manufacture the UK's best quality doors, backed by uncompromising levels of service.

Despite the growth and deserved success, the family ethos still firmly remains today.
